AKHILESH DIXIT

AI-Assisted App Builder

Dehradun, India | akhileshdixit045@gmail.com
Open to remote roles; relocation to Delhi/Noida after an offer

PROFILE

Self-directed builder of web applications and Discord tools using Anthropic Claude and OpenAI Codex. Hands-on project exposure to deployment, Firebase, Linux hosting and service integrations. Developing code fundamentals alongside AI-assisted project work; seeking an early-career role in AI-assisted product building or web production.

INDEPENDENT PROJECTS

SectorZero | Web application

https://app.sectorzero.life

- Built and hosted a public web application with AI-assisted development tools.
- Developed discovery and detail-page experiences; explored content and availability integrations with JustWatch and Watchmode.

Mayor | Discord analytics and moderation tool

https://discord.sectorzero.dad

- Built a Discord tool using AI assistance, combining community-activity analytics with moderation features.
- Included message activity, voice-time and game-presence tracking to help understand server participation.

TOOLS & TECHNICAL EXPOSURE

AI-assisted building: Anthropic Claude, OpenAI Codex; project iteration and deployment.

Hosting and platforms: Firebase, Linux home server, HTTPS and reverse proxies.

Cloud familiarity: AWS, Google Cloud and Hetzner.

Integrations: Third-party APIs, content availability services and Discord features.

EDUCATION

Manipal University Jaipur

Master of Science in Mathematics (Online) | Enrolled September 2026
